Technical Skills

[Front End] : HTML | CSS |Java Script

[Back End] : Python

[Database]: PostgreSQL

[Opearating System] : windows | Linux

Education

#[Degree]: completed B.E / CSE in Stella Mary's College of Engineering,Kanyakumari.

#[Academic year]:(2020-2024)

Projects

#.Biometric Attendance Management system for school and college.

Developed a full-stack web application that enables users to locate nearby EV charging stations, check availability, and book slots in real-time. Implemented backend services using Python and Django with PostgreSQL for data management, and designed a responsive front-end with HTML, CSS, and JavaScript. Focused on optimizing the user experience, data accuracy, and booking efficiently.

#.Electric Vehicle Charging station finder and slot booking.

Developed a biometric attendance management system for schools and colleges using Python, Django, and PostgreSQL. Implemented fingerprint-based authentication to ensure secure and accurate attendance tracking. Integrated real-time data processing and reporting features for administrators
